

Week 1: The AI Lexicon - Learning Briefing

Welcome to your first week of AI learning!

This briefing covers the fundamental vocabulary and concepts you'll need to understand AI, Machine Learning, and Deep Learning.

Key Topics:

- â€¢ Differentiating between AI, ML, and Deep Learning

- â€¢ Understanding the spectrum of AI (ANI, AGI, ASI)

- â€¢ Identifying the three core learning paradigms

This document serves as your reference guide throughout the week's learning activities.
